PROLOGUE & ACKNOWLEDGMENTS

Many years ago, we heard a voice within that exclaimed: “there is a greater love awaiting you. Let go of life as you know it and find what is real”. That was our turning point, the revelation of our *dharma*. As we surrendered to the silent flow, we embraced the path of sacred partnership and answered our deepest soul calling. The Dominican Republic soon became our new Home. We followed *the way of the heart* to share the light where it is most needed. We trusted evolution and the miracle of spiritual alchemy. We chose to walk in faith, knowing that wherever G.O.D. (geometry of divinity) asks us to be, *there* everything will blossom.

We were inspired to activate a divine vortex with the Brotherhood-Sisterhood of the Light that represents a sacred anchor for our global service. This forcefield holds the key vibration for the activation of the planetary heart, the balancing/merging of the masculine and energy principles and the proliferation of the *Divine Union* (state of consciousness) on Earth. This vortex has been consecrated for spiritual retreats and enlightening experiences (resurrection and ascension) so that all the dedicated chelas of the Ascended Masters can find Love-Truth and break through the matrix of illusion.

Beloved Guru Ma and Lanello, thank you for being a lighthouse both in heaven and on earth and for opening a doorway to the etheric realms so that we all find the way Home. We shall meet in the higher octaves to celebrate the victory of the Light!

Beloved Sanat Kumara, Hierarch of the Great White Brotherhood, thank you for your guidance and protection, for keeping the flame of life on behalf of Humanity and for reminding us of the path that leads back to Source. Thank you for keeping your promise to reveal to us what lies *beyond the veil* and never giving up on us as we explore the potential of the higher realms. We are grateful for the uplifting activity of the Great White Brotherhood!

Eternally yours,
Gaitana Yantal.

INTRODUCTION

To surrender is to stop performing

Ready to walk the path of light and challenge unreality? As you join our spiritual community, you will cross the Portal of Truth. If you are drawn to this transmission, it means that you have made the inner choice to move beyond the phase of empowerment to choose permanent liberation.

The Ascended Master Hilarion will help you raise your frequency so that you start awakening your prosperity consciousness and magnetize the teachings that will encourage you to make steady progress. His mantra, "Truth Above All Else", will prepare you to open your heart to the Three Jewels (Guru, Dharma, and Sangha) to be able to challenge the false matrix in which you are still trapped. These *gems* are the gateway to the Ascended Master Consciousness and, therefore, to the fulfillment of your divine vision-mission.

Walking the Path of Enlightenment will invite you to challenge the lie and go through one of the main initiations on your journey back Home: the phase of *dis-illusionment*. You will have to build momentum to break through the inertia that you have accumulated by attaching to a false reality -the belief that material success/comfort will alleviate your suffering. You will need to increase the fire in your heart because the *dweller*¹ will meet you every step of the way until you stop being afraid of it and are determined to be victorious. When you are centred, *external* reality finds order and a higher alignment.

¹ Dweller-on-the-threshold is a term sometimes used to designate the anti-self, the not-self, the synthetic self, the antithesis of the Real Self, the conglomerate of the self-created ego, ill-conceived through the inordinate use of the gift of free will.

This is not a DIY (do-it-yourself) journey, but an opportunity to learn how to neutralize your *poverty mindset* so that you can co-create your path of ascension with the Hierarchy of Light. When your heart desires freedom, it has the power to find the deceitless Guru, the lover of your soul, who will help you unlock your divine potential and break free from all entanglements.

Remember that everything falls by its own weight. If you continue rising, what is real will prevail and what is fake will naturally fade away. The illusion will lose power! As you empty your *electronic belt*², your Presence will take over and help you find inner refuge so that you can follow the Inner Law and release your karmic and ancestral attachments.

How long have you been pulled down by your karmic weight? How can you find the light if you are lost in the ocean of samsara? Your heart will show you the door to the Ascension Temple so that you learn the Cosmic Law and follow the steps of initiation to access higher realms of light.

Our Open Temple is a cathedral of light. It is a place of pilgrimage (divine focus) that welcomes the chelas who are seeking *first* the kingdom of God. As you worship here, you can live in a state of grace and experience a deeper connection with Alpha and Omega. God and Goddess Meru have created an arch between the Temple of Illumination (Lake Titicaca) and this forcefield for the balancing of the masculine and feminine principles and the sponsorship of sacred partnerships to accelerate collective liberation and restore global harmony. We invite you to activate your Ruby Ray Heart!

² The momentum of untransmuted karma in orbit around the "nucleus" of the synthetic self (or carnal mind) form what looks like an "electronic belt" of misqualified energy around the lower portion of man's physical body. (ascendedmasterencyclopedia.org)

This is an Aquarian temple, which means that it is not supported by a traditional temple-shaped building but by the Light Beings, Elementals, Ascended and unascended masters who guard this forcefield and preserve its purity.

In our previous eBook, *Return to the I AM: The Aquarian Call*, we mentioned that every forcefield is sustained by a creative pattern. Our temple has been blessed with a golden-white full bloom lotus flower.³ The white tone represents the Mother Ray, the golden ray represents the light of the crown, and the full bloom illustrates the open heart, the inner sanctuary that is receptive to G.O.D.

We all know that the Age of Aquarius represents the return of the Mother. Any Golden Age encourages us to find inner harmony and balance to manifest our enlightened activity. The return of the Mother does not mean that she was not here before. Every avatar, saint, and committed chela has always been in devotion to Her. She can now help you go back to the Father as you connect with the spiral of spiritualization that will neutralize your identification with material comfort and social success so that you may remember your true calling. True love can save (elevate) your soul!

The Divine Father-Mother have blessed us with the opening of our mystery school, which is an Aquarian enlightenment center. Our emphasis is not on creating external structures or human organizations but on the expansion of consciousness.

³ It illustrates the state of consciousness that allows us to rise in the midst of human decadence and still preserve our beauty, purity and willingness to elevate the planetary collective. It also represents receptivity -being open to embrace the Aquarian Buddha, Dharma and Sangha. The bloomed lotus symbolizes the Door of the Present and the unfolding of the enlightened consciousness.

The purpose of an Aquarian forcefield of light is to create enough contrast with the egoic matrix so that everyone can discern what is real from what is unreal. Any sacred place dedicated to liberation-enlightenment-ascension exists in a higher vibration, although it is temporarily manifested on Earth. It is the *place prepared* by the Ascended Host!

Here, we are trained to neutralize the dark forces, absorb cosmic energy, and become spiritual adepts. People can only attack your form, but never your essence. That is why it is key to *know thyself*! When you stop identifying with external reality (and your body) you are free from suffering. You are no longer triggered by the forces of unreality.

You might be wondering who has the keys to divine realization. There seem to be so many paths leading to God. Where is the Truth? In the Four Paths of Yoga? In Kabbalah? In Dzogchen? Taoism? Eastern or Western traditions? In our Enlightened Education teachings? How can you decide what is best for you? Just surrender to the wisdom of the heart, the abode of your Inner Christ. The code of freedom is within. Ultimately, from the perspective of Unity consciousness, wisdom is One and all the *authentic* paths lead to Source. Just pick the road that resonates with you and that can simplify your reunion with God! If you are true to yourself, you can't go wrong! Deep listening is key.

Are you ready to find your permanent center? We offer you a message of enlightenment and a direct path to crack the matrix and realize Love-Truth. We invite you to walk the Path of the 12 Rays to be sealed in the light of Ascension's Flame and let go of the deceiving way of the world. Receive the keys to soul freedom directly from the Ascended Masters who have attained immortality.

Enlightened Education, our Light Technology, consists of 65 Divine Codes⁴ that you can incrementally activate within to move closer to the matrix of divine perfection. Follow these steps to go up the ascension pyramid and find G.O.D. These seeds of consciousness will create a field of resonance to help you discover the *inner scripture*, the everlasting gospel that cannot be destroyed and will always give fruit. They will lead you back Home, to the heart of enlightened creation, the center of *progressive revelation*.⁵ "I have yet many things to say unto you, but ye cannot hear them now. Howbeit when he, the Spirit of truth, is come, he will guide you into all truth: for he shall not speak of himself; but whatsoever he shall hear, *that* shall he speak: and he shall shew you things to come."⁶

We invite you to open your heart to these teachings and be transformed by them. Don't just *read* this written transmission, welcome this release of light, and absorb its *nectar* to be quickened into higher spirals of consciousness.

Blessings from our Open Temple, the Oasis of Love-Truth!

⁴ We share 33 **Light Codes** to awaken your Christ Consciousness and dissolve the illusion of materialism; 12 **We Codes** to remember how to co-create in the light; 15 **Source Codes** to activate your Buddha Consciousness and dissolve the entire matrix of illusion; and 5 **Ascension Codes** to merge with your I AM Presence and crystallize the 4 quadrants of matter to master the physical plane. This is our **Divine Technology**.

⁵ There is no such thing as final revelation, for revelation is ever coming forth from the I AM Presence and Christ Self of every individual as the still, small voice within. It is also coming forth through those lifestreams ordained by God to serve as lightbearers to focus his wisdom and to make it practical for the age (...) A true religion must possess progressive revelation, else it is already in a state of stagnation. (ascendedmasterencyclopedia.org)

LIVE YOUR DHARMA

Your *dharma* is your duty to life. We all come to Earth to fulfill our cosmic purpose and to share the way of freedom with all sentient beings. This requires going through a gradual *unveiling* process until you can heal your mental afflictions and crystallize all impure appearances. Ordinary consciousness won't help you transcend the matrix of illusion and neutralize your fearful mind. You will need to awaken your *enlightened* consciousness! Discover how collective energy can shift in your Presence and turn *enemies* (opposing forces) into spiritual allies as you welcome the protectors of the dharma.

If your *merit* allows it, find a living Guru (or become one!). An embodied Guru can simplify your journey. The thread of contact that connects you with your spiritual lineage is key to ascend daily. You need to open your heart to the one who is your *next link* in Hierarchy because you don't have the full increment to slay the dweller and defend your Real Self. "Paramhansa Yogananda said that success on the path comes twenty-five percent by our own effort, twenty-five percent through the guru's effort on our behalf, and fifty percent by God's grace."⁷ Your Guru will unlock the 75% of momentum that you require to thrive because they are in connection with Source (25% + 50%). The Guru is a portal to the realms of light, the mediator between heaven and earth, and will gradually give you access to the 65 Divine Codes to weave your Body of Light and fulfill your reason for being!

⁷ Nayaswami Devarshi. *Kriya Yoga: Spiritual Awakening for the New Age*. Crystal Clarity Publishers, 2023.

Don't fall into the egoic trap that makes you reject *cosmic support* because you think that you can cross the veil (of materialism) on your own. *Personal* empowerment has never allowed students to free themselves from the tentacles of self-deceit. If you were left to your own device, you would definitely sabotage your path. It certainly takes the entire Cosmos to overcome!

Also, remember that all the sacred teachings that have been shared by the world prophets and spiritual guides are both timeless and contextual. Therefore, you need someone to help you decipher them and apply them to your current reality so that you don't create dogma and unnecessary limitations and restrictions to your expansion. Welcome new revelations and the new currents of consciousness!

Your main challenge as a chela is to let go of the need for *personal* merit. Know your place! Self-importance is a detractor; it is as poisonous as unworthiness. Embracing the role of the apostle-disciple means that you don't compete with your Guru or other students in the sangha because you understand the delicate balance of frequencies that needs to be achieved to "rise as One". The community manifests to help the Guru share the Word and concentrate/refine the energies of the ascension vortex so that everyone can transcend in their corresponding cycle. Chelaship is the way in which you prepare to fulfill your sacred labor.

To be a Guru is to occupy an *office* in hierarchy. It is also a sacred role, not one that is used to aggrandize the ego. In fact, the Guru has to destroy the ego (slay the dweller) to fulfill their role and serve the Light, selflessly!

The Guru walks in faith, receives the *progressive revelation*, develops cosmic vision to unlock the mysteries of the Inner Law, guides the community, and communicates with the Higher Realms to bring forth the divine design to manifest God's Plan on Earth. They can ask for dispensations to accelerate collective liberation and work heart-to-heart with the community to earn the right to receive grants of energy from the Ascended Host to transmute the real cause of human suffering.

Lord Maitreya has said that "a spiritual lineage, anywhere in cosmos, is simultaneously both brotherly and hierarchical and it's based on what we know as the master-apprentice relationship."⁸ What determines your position in the link of hierarchy? Your spiritual merit/attainment, your readiness to walk the path of sacrifice, service, surrender, and selflessness, and your contract for this embodiment.

- ◆ What are you here to master?
- ◆ What is your highest calling?
- ◆ What did your soul choose to experience?
- ◆ How can you help advance the Cause of the Ascended Masters?

The *heart movement* towards your Guru is key to remove your ancestral and karmic imprints and attain liberation. When you are far from the center of light/enlightenment and its representatives, the ego will probably swallow you up because you won't have enough momentum to challenge the dweller. You can certainly make progress, but not enough to break free.

Spending time in your (physical or etheric) community temple will surely help you cultivate the spiritual virtues that you require to thrive. A temple is not just a place, but a sanctuary where you can connect with the momentum of energy that will guide you back to Love-Truth.

Most students temporarily/eventually disconnect from the forcefields of light because they are afraid of losing something or someone valuable along the path, but communion-community time will only help you *lose karma*, soul weight, not what is of real worth. It will also challenge your personality to help you dissolve the *defeat mindset* that is making you suffer. You will just let go of all that has been obscuring or eclipsing your light. This is the blessing of the path of mastery –you can unburden yourself! As you remove inner veils, everything is revealed, effortlessly.

Won't you desire to remember and fulfill your Life Plan (mission)? Are you meant to be a passive witness, a student, a chela, or a missionary? What is your mission in the Aquarian dispensation? To reveal it, you will have to challenge the ancestral NO that has stopped you from answering your soul calling. Your Guru will give you the keys of prosperity so that you can remove the *curse of impossibility*, master your soul lessons, and find Home -your spiritual center.

How do you know if you are ready to enter the kingdom, i.e., embrace your Christ consciousness and share the Light Codes that can help liberate other souls from the *pit* of ignorance?

These are the main signs:

- ◆ You understand the value of freedom.
- ◆ You can take refuge in your Higher Self.
- ◆ You have faith in God's will and God's way.
- ◆ You are *truly* done with your karmic timeline.
- ◆ You are grateful for cutting your ancestral cords.
- ◆ You can joyfully surrender to the Hierarchy of Light.
- ◆ You welcome pure love and desire your spiritual resurrection.
- ◆ You are ready to experience irreversible transformation -inner conversion.

You will notice that entering the kingdom is not a matter of time or money, but of love. It's not *human* worthiness (self-idolatry) that is required, but divine dignity -knowing that you are intrinsically pure and a rightful heir of the kingdom. Energetically speaking, to cultivate worthiness is to fill the chakras with light. It also means transmuting the substance stored in your electronic belt so that it can be purified and that portion of refined energy can rise to your causal body.

When you place the I AM Presence at the center of your individual-collective creation, the gifts of the Holy Spirit are activated, and all power is given onto you in heaven and on earth. This means that you earn the right to manifest the Divine Plan: expanding the sphere of influence of the kingdom-queendom of God! Many chelas desire to access this state of consciousness because they have already realized that outside the kingdom everything is fleeting, illusive and, therefore, disappointing.

To live your dharma you need to fully transition from your *ancestral destiny* to your *divine destiny*. Movement is required! That is why you need to resolve your karmic ties and entanglements before you receive the gift of transcendence. How can you be free to move if you are bound? Ask your Holy Christ Self and Beloved I AM Presence to release your soul from confinement!

Most students or chelas of the Ascended Masters resist the path sooner or later. They become afraid of their own dweller and believe that their life was better off before they joined the path. The truth is that they were unaware of their karma because they were spiritually asleep. Unconsciousness does not eliminate the causes of suffering; it just makes you pretend that they are not there. When you wake up from the dream, you always face your own shadow because you have decided to take responsibility for the use -and misuse- of cosmic energy. There is no turning back! Either you learn to master your destiny, or you will be a slave to your karma. Will you be a master or a slave? That's the choice.

Remember that to surrender is to stop performing. Pretense creates conflict because you promise you will do something that you don't truly desire to do. When you are authentic, everything flows because you accept life as it is. You don't have to lie (and create a false personality) because you are afraid to be who you are. You don't have to hide your weaknesses or brag about your strengths. You just need to do what's right. As long as you need other people's love and approval, you will compromise Love-Truth.

Heal your inner beggar!

To stop resisting the inevitable -your return to Love-Truth- stop projecting your fears, do your inner work, open your heart to the Brotherhood-Sisterhood of the Light, slay the dragon in all the areas that conform your electronic belt, align with the vision of enlightenment-ascension, allow yourself to be emptied and re-filled with the nectar of Love-Truth, and amplify your Threefold flame in the four quadrants of matter. The 12 Rays will offer you the perfect attunements to cut the cords with unreality.

Connecting your heart with the heart of the mission and the “geometry of divinity” is key. Merge your own mind with the body, speech, and mind of your Guru. This practice serves as a conduit for receiving blessings, inspiration, and cosmic energy from your spiritual lineage because the Guru embodies the Three Jewels. Gems always attract other gems. The Guru is also known as the wish-fulfilling jewel since they guide you towards enlightenment and reveal the steppingstones of the path of divine realization.

Unity is power! When you understand the value of unity consciousness, you will never want to struggle on your own. Enter the path of simplification and step into the ascension vortex.

There is no life without the dharma!
